Heavy Equipment Rental

Crane Rental

We empower businesses and contractors with seamless access to a diverse range of cranes and lifting equipment, eliminating the need for significant upfront investments. Our rental solutions are designed to meet the demands of construction, manufacturing, and industrial projects requiring heavy lifting, precision material handling, or extended reach. Choose from a wide selection of equipment, including mobile cranes, crawler cranes, and boom trucks, all operated by skilled professionals to ensure optimal performance. With flexible rental plans, proactive maintenance support, and a strong commitment to safety compliance, we deliver the reliability and efficiency needed to keep your projects on track and within budget.

Hydraulic Piling Rig Rental

We provide professional rental services for state-of-the-art hydraulic piling rigs, designed to meet the demands of complex foundation engineering and geotechnical applications. Our fleet features high-performance rigs capable of handling a variety of piling methods, including bored piling, continuous flight auger (CFA) piling, and diaphragm wall construction, ensuring versatility across diverse project requirements. With flexible rental contracts, highly skilled operators, and comprehensive maintenance support, we prioritize operational excellence, safety, and project efficiency. Whether for large-scale infrastructure developments or precision foundation projects, our hydraulic piling rigs deliver high performance, reliability, and cost-effective solutions to meet your engineering objectives.

Anchoring / Micropiling Machine Rental

At Moveto we are proud to offer the Casagrande C6 for rental, a versatile and powerful crawler drilling rig designed for demanding foundation applications. Ideal for anchoring, micropiling, jet grouting, and soil stabilization projects, the C6 combines advanced technology with robust performance to ensure efficiency and reliability on your job site.

Rock Bolt Drilling Machine Rental

We offer range of ROC machines as rental which are hydraulic crawler drill rigs designed for surface drilling applications. They are widely used in industries such as mining, quarrying, construction, and infrastructure projects. Their primary uses include blast hole drilling, drilling for anchor and rock bolt holes, drilling holes for soil testing.

Pneumatic Drilling Machine to Drill on Height

A pneumatic drilling machine for drilling at height is specifically designed to deliver efficient and safe drilling operations in elevated or hard-to-reach locations. These machines rely on compressed air to power the drilling mechanism, making them ideal for various applications such as rock bolting.

Pile Driver (Ramming Machine) Rental

A ramming machine is a specialized piece of equipment designed to drive foundation posts or piles into the ground, providing a stable base for mounting solar panels. These machines are essential for large-scale solar farms, where precision, efficiency, and reliability are critical for installing thousands of posts over vast areas.

Air Compressor Rental

We offer a range of portable air compressors at for any short or long term rental requirement.

Loader Rental

We offer a range of Loader Rental at for any short or long term rental requirement.

Excavator Rental

We offer a range of Loader Rental at for any short or long term rental requirement.

Forklift Rental

We offer rental forklift from 5ton to 16 ton.

Telehandler Rental

We offer rental telehandlers for your projects.

Aerial Platforms Rental (Scissor lift, Boom lift)

We offer range of aerial platforms for your projects.

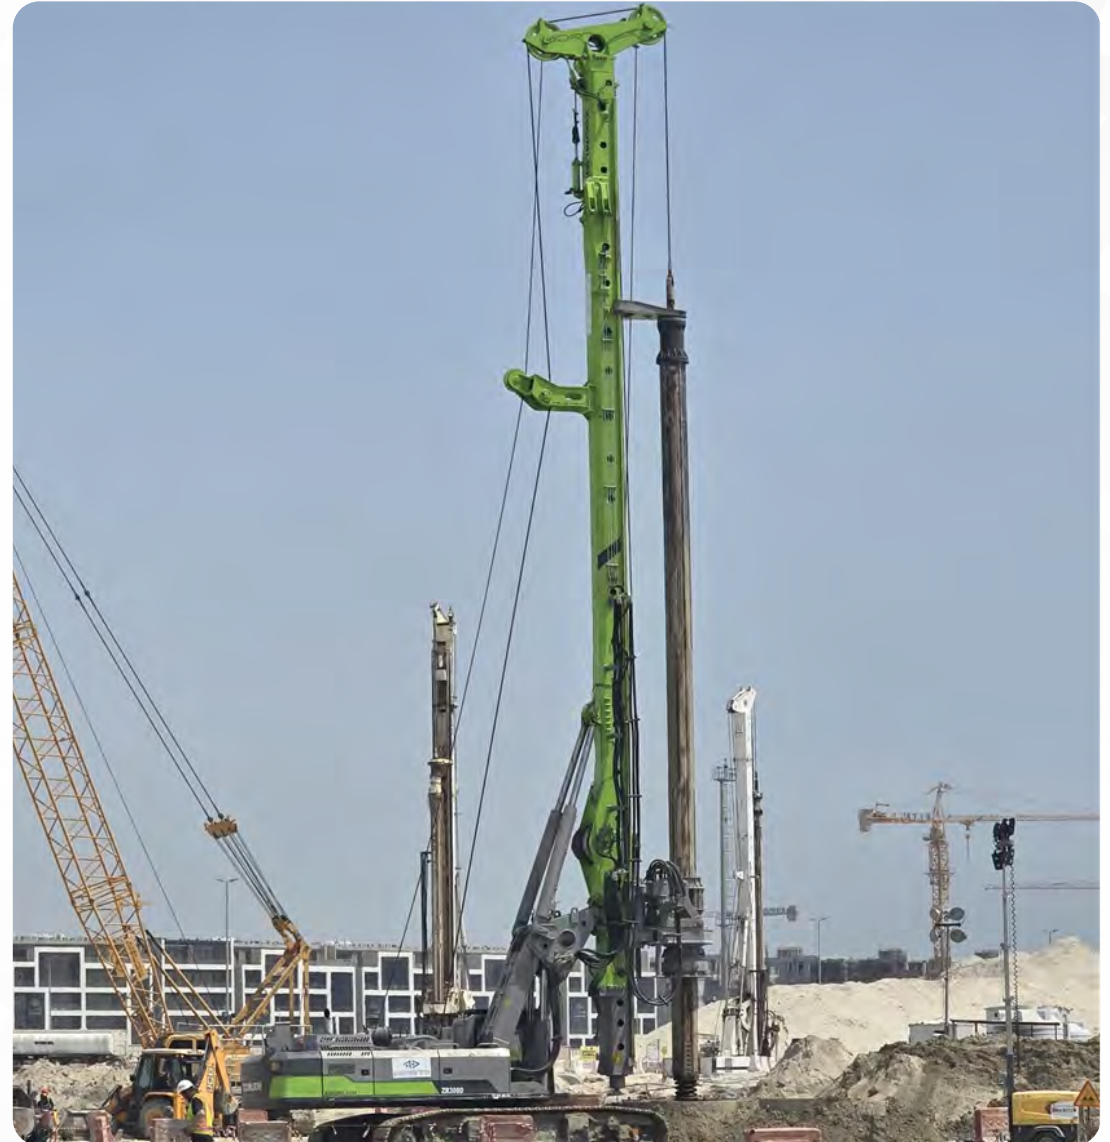

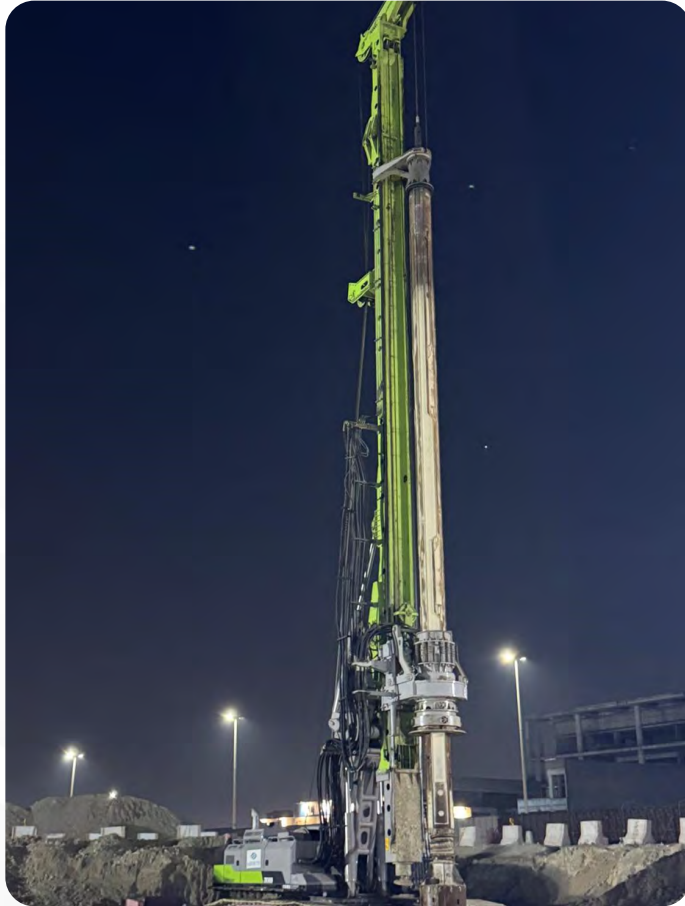

Contracting

Piling works

At Moveto, we provide comprehensive piling works as a trusted contractor for a wide range of construction projects. With a team of experienced professionals and state-of-the-art equipment, we deliver tailored solutions to meet the unique foundation needs of our clients.

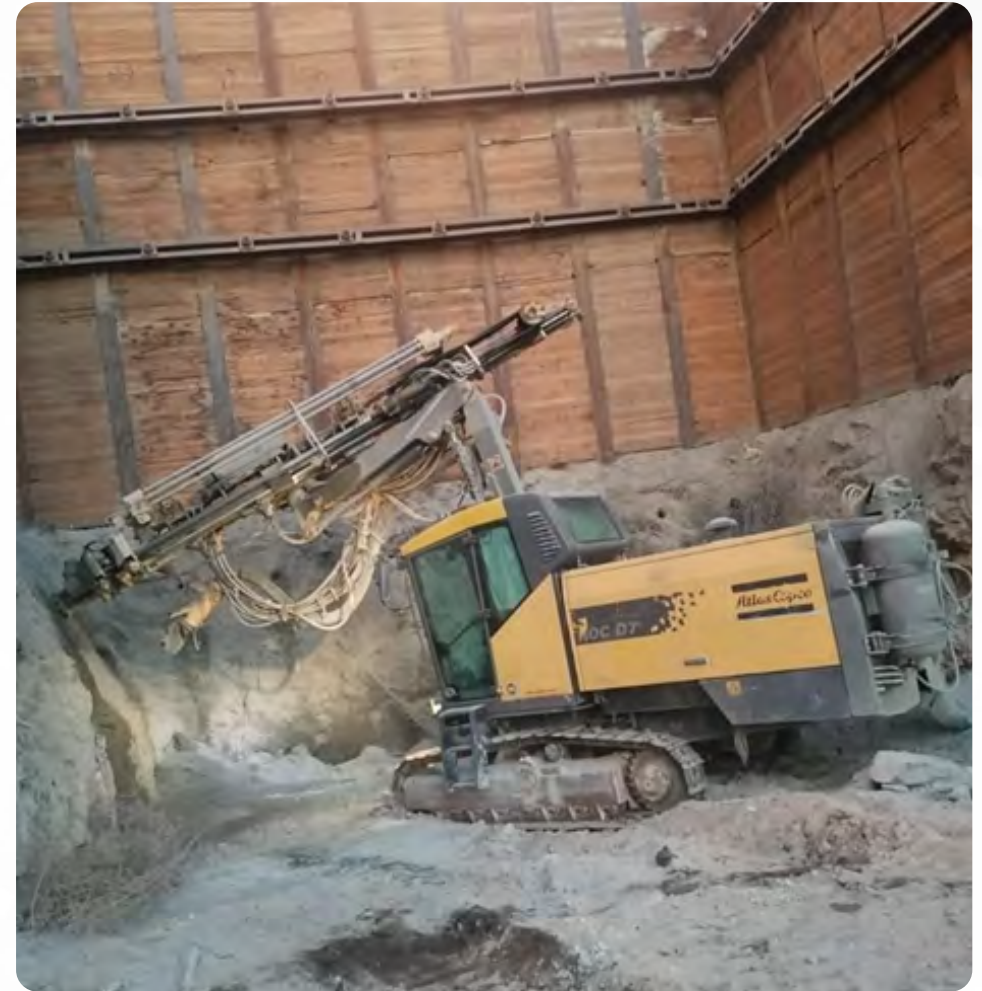

Slope Stabilization works

(Ground Anchors, Rock Bolt, Soil Nail, Shotcrete)

Slope stabilization using rock anchors, rock bolts, and soil nails and shotcrete is a critical geotechnical technique designed to secure unstable slopes and prevent landslides, erosion, or slope failures.

Solar Plant Ramming Works

Moveto as subcontractor provides services for (ramming) driving foundation posts or piles into the ground to provide a stable and durable base for mounting solar panels. This method is widely used in large-scale solar projects due to its efficiency, cost-effectiveness, and suitability for various soil conditions.
